HFS-SS SERIES | Washdown Low Profile & Pit Type Floor Scales

HFS SS Series Floor Scale ▲

Washdown Floor Scales

CAS HFS Washdown Floor Scales are designed to provide years of dependable use in hostile industrial applications where easy cleaning and sanitizing procedures are a must. No matter what your application requires, the versatile CAS HFS SS Series Floor Scale has what it takes to provide years of accurate weightings in the most demanding applications.

Choose a sleek low profile design or a pit type floor scale constructed of 304 stainless steel, ranging in sizes from 2' x 2' to 6' x 10' and capacities from 1,000 lbs to 20,000 lbs.

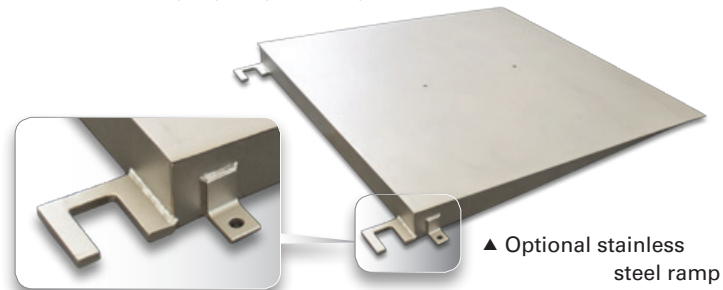

For applications that require maximum accessibility to all scale areas, the CAS HFS PT, a stainless steel reinforced scale frame with a one (1) inch thick USDA/FDA approved removable polyethylene top is also available.

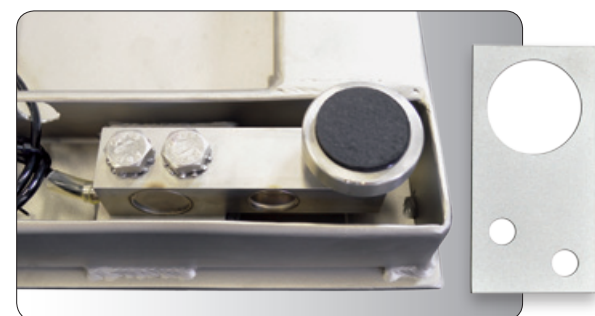

Tubular construction ▲

Standard Features

- Two inch and three inch tubular type 304 stainless steel construction
- All structural tubes are capped and sealed
- Wiring is protected within stainless steel conduit
- Smooth type 304 stainless steel .25" thick deck plate
- Remote stainless steel NEMA 4X Signal Trim J-box with 10' seal tite conduit and 20' indicator/load cell cable
- Four internally mounted NTEP certified IP67 rated stainless steel load cells
- Easy access Loadmaster leveling feet
- Eye bolt holes allow easy set up and placement (Eye bolts not included)
48" x 48"/5K to 60" x 60"/10K Thread size: 1/2-13
60" x 60"/20K to 60" x 84"/20K Thread size: 3/4-10
- 100% end loading
- 200% overload protection
- NTEP approved 5,000d

▲ Optional stainless steel ramp

Loadmaster leveling foot & lag down bracket ▲

Not all floor scales are the same! CAS HFS SS Series Floor Scales clearly are distinguished from other floor scales. The CAS HFS SS Series floor scale platform's structural integrity insures dependability and accuracy by properly transferring weight to the scale's stainless steel load cells to provide repeatable, accurate weights.

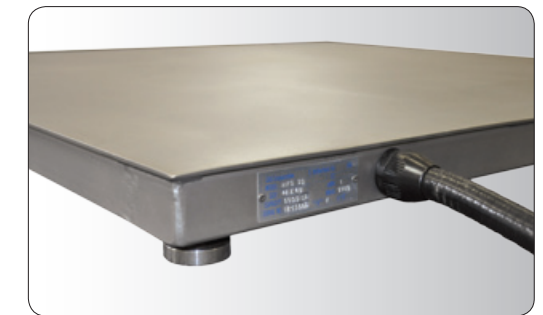

Cleanability is assured whether the CAS HFS SS Series stainless steel or stainless steel with poly top is utilized.

Versatile - customer valued options guarantee that CAS HFS SS floor scales meet ALL your individual and industry specific needs.

Dependable | Durable | Accurate | Easy to Clean

▲ Remote stainless steel j-box with 10' of seal tite conduit and 20' of indicator/load cell cable
