

LP-1000N

Procedure for Installing Software

1. Insert disc
2. If the program does not automatically start, go to My Computer and search for the CD drive (usually labeled Drive D) for the file LPN Software Inst.
3. Open the LPN Software Inst folder and click on the setup file. This will open up the InstallShield Wizard which will guide you through the rest of the setup procedure.
4. Follow the prompts in the Wizard, choosing the UN (general) version.
5. When you are done an icon will appear on your desktop labeled LP Works.
